PHURICHAYA

UX / UI DESIGN

KONGSRILANG

ABOUT ME

My name is Cinq. I am a graphic designer who is interested in UX/UI design. I love to find new inspiration from various trends. I'm studying in the bachelor of Multimedia Technology and Animation at MFU. Now I'm looking for new experiences and I really hope we can work together.

EXPERIENCE

Project Online study course website "Wonder"   *1st year*

UX design

It's the pair project that I'm responsible for all UX design. Our project is a project about online courses. It was a challenging project for me because of the number of people and limited time.

Filter on Instagram   *1st year*

Creator

During the 1st years I want to try new experiences. And I tried to learn how to make filters on IG. I've tried making about 4 filters. and has the highest number of users about tens of thousands.

Project Art toy Northen style "North Bun"   *2nd year*

Charactor design and Graphic design

It is an art toy project with a theme inspired by northern food. It has some characters and some background content that I have created. **see more**

Project Tarot AR Card "Marchen"   *3rd-4th year*

AR developer

I'm the main responsible person for the AR part in this project. From this project I learned unity skills, AR skills, and how to build application It was a stressful project but well worth the knowledge gained. **see more**
